

Online Tracking for Summer Reading Club Reading Incentive Program

In order to track your child's books for the reading incentive program online, you must first create an account:

- Type <https://host8.evanced.info/lowermaclib/sr/homepage.asp> into your browser or follow navigation links on the library's website (www.lowermaclib.org) → Kids Homepage → Parents tab → Summer Reading information
- Select from the tabs across the top which program you are signing your child up for. As in the past when choosing *Read to Me* vs. *Read Alone*, use your best judgment as to which program your child will be suited for best. The online tracking makes it more difficult to switch between programs, but we will work to be flexible with you.
- Once you've selected the appropriate program tab, click on the **Sign Me Up** button. Fill out the required forms with your child's information.
 - If you have multiple children in your family and wish to track them from the same account, choose **Add Member** from your homepage. A window will pop up asking you to select which program that child will be participating in, after which point you can enter his or her information, just as you did for the first child. A "Manage" drop-down box will now appear on your homepage for you to choose which child you're updating.
- To log books, click on the **Add/View Log** and fill in the required fields.
 - *Please Note:* You will be able to enter books as soon as you create an account and include titles read since June 1st, however, you will be unable to collect any prizes until the Summer Reading Club starts on June 28th.
- In addition to creating an online account, if you will be tracking online, please fill out the "Online Tracking Log" located in the front of the log bins in the library. Among other things, this is where you will indicate whether your child wants a participation certificate at the end of the summer.
